USING YOUR SPELL MASTER DATA DISKETTE

Your Data Diskette must be used along with a Spell Master System Diskette. For instructions on using your Data Diskette, please refer to the Spell Master instruction booklet. Your Spell Master Data Diskettes may be modified to include your own spelling units as well as those provided by Softsmith. Please note, however, that making modifications to your Data Diskette will void your warranty.

IMPORTANT TIPS

Follow these tips to minimize problems in running this and many other programs on your microcomputer.

Handle your diskettes carefully and hold them with your fingers on the labeled edge. Always keep them in their special sleeves while not in use.

Make sure the shift lock light is on if running this program on the Franklin Ace. This program recognizes only capital letters.

Do not open the disk drive door while the "in-use" light is on. This may damage your diskette and render it unusable.

Do not press ⟨CTRL-C⟩ while the "in-use" light is on. Results are unpredictable and damage to your program may result.

WARRANTY MESSAGE

Please take a moment to fill out and mail the enclosed Warranty Card. By having your name on file we will be able to provide better customer service, including information on program updates and replacement of damaged diskettes.

A great deal of effort has gone into preparing this program to operate smoothly and without "bugs." Should you have problems running your program, please contact The Software Guild Service Department, toll free, at 1 (800) 341-4000.

Given normal use, it should not be possible to damage your diskette. Should your diskette (or the program on it) become damaged however, please send it to us together with a short description of the problem. The Software Guild, Inc. will replace your disk promptly, per warranty provisions.
